

About AQX

AQX Engineering is a full service, engineering firm headquartered in Santa Ana, California with a branch office in San Jose. We provide a wide variety of services ranging from home additions / remodels to multi-family residential projects, and from re-imaging / remodel, commercial projects to ground-up big buildings on flat or sloped lots.

Mr. Tagart established Computerized Construction Services in 1981. Dr. Xiao took over his firm in 2004 and renamed it as AQX Engineering.
